Astrophotography 101 at Bass River State Forest

Bass River Twp. – Did you ever wish you knew how to get photos of the constellations and Milky Way in the dark, night sky? Join Ben Wurst, an amateur photographer, to learn about the basics of astrophotography on Saturday August 19th starting at 8:15 pm at the Lake Absegami Beach in Bass River State Forest (762 Stage Road).

During this “hands on” presentation Ben will go over settings and techniques used to capture long exposure at night. Attendees should bring a digital SLR camera, lens that can focus manually (the wider the better!), and a tripod. Also helpful is a remote shutter release and don't forget the flashlight!

Insect repellent and something to sit on is recommended. Cloudy conditions cancel. The venue is ADA accessible. The program is free but donations to the Bass River State Forest Interpretive Program are welcome.

For a 2017 summer program schedule or for more information contact the Forest Office at (609) 296-1114 or www.njparksandforests.org.
